## Projects

### Audio or Text to Sign language translator using NLP

- This led to the idea of introducing an audio to Indian Sign Language Translation System.
- Which can erase this gap in communication between hearing-impaired people and society.
- The system accepts audio and text as input and matches it with the videos present in the database created by the authors.

### Food Donation Management System

- Food donation system is a process usually led by food donation organization.
- That are collecting food from business and individuals or from the ones with excess of goods, storage it, it to the food banks.
- Finally redirect it towards people in community that have a deficit of particular goods.
